

134 – Non-Detectable Orange Floating Pen

Document Number: HSE 7244

Date Of Issue: 13/12/2023

Revision Number: 1

Date of Revision: 13/12/2023

The following document is a declaration of compliance for the above product:

Food Contact – 2020/1245 amending and correcting Regulation (EU) No 10/2011

The above-mentioned product complies with the relevant conditions detailed in Regulation 2020/1245/EC amending and correcting Regulation (EU) No 10/2011 regarding plastic materials or article, products from intermediate stages of manufacture and has been produced according to Regulation 2023/2006/EC on good manufacturing practice for materials and articles intended to come into contact with food, applicable to plastic raw materials.

Polymer 2020/1245/EC amending and correcting Regulation (EU) No 10/2011

This product is based on a carrier system that complies with the relevant conditions detailed in Regulation 2020/1245/EC amending and correcting Regulation (EU) No 10/2011, on plastic materials and articles intended to come into contact with food, applicable to plastic raw materials. The product complies with the general safety requirements of Article 3 of the Framework Regulation and to risk assessment in line with Article 19 of the Plastics Regulation. The above mentioned product does not contain any substances with restrictions listed in Annex I to the Plastics Regulation. The above mentioned product contains no substances with restrictions listed in Annex II to the Plastics Regulation.

Pigments and Additives 2020/1245/EC amending and correcting Regulation (EU) No 10/2011

The above mentioned product contains no substances with restrictions listed in Annex I and Annex II of the Plastics Regulation. The pigments and additives present comply with the general safety requirements of Article 3 of the Framework Regulation and are subject to risk assessment in line with Article 19 of the Plastics Regulation.

Dual Use Additives

The above mentioned customers products may contain in some cases dual use additives as listed in Table 1 and 2 of the Plastics Regulation 3.6.3 and no higher than the levels stated below: -

- E171 < 0.100%

Conditions of Use

Conditions of use of the above mentioned plastic intermediate material can be found on the individual Technical Data Sheet.

California Proposition List 65

The above-mentioned product contains Titanium Dioxide pigment. However, the pigment is fully encapsulated. No other substances listed are present.

European Resolution AP (89) 1

The pigments and additives present in the above mentioned product conform to the requirements of European Resolution AP (89) 1 on the use of colourants in plastic materials coming into contact with food.

BfR Recommendation IX

The pigments and additives present in the above mentioned product conform to BfR recommendation IX issued by the BfR for colorants for plastics and other polymers used in commodities.

Phthalate plasticisers, Silicones, Latex & Azo dyes

Phthalate plasticisers, silicones, latex and azo dyes are not designed to be component parts of these masterbatch products and should be considered free of all.

Endocrine Disruptors

These masterbatch products do not contain any intentional addition of Bisphenol A, S, F or other substances suspected of being endocrine disruptors.

RoHS

This formulation does not contain Cadmium or Cadmium compounds, Lead, Mercury or Hexavalent Chromium, Polybrominated Biphenyls (PBB), Polybrominated Diphenylethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP) according to RoHS Directive 2011/65/EU as amended by EU 2015/863, known as RoHS3.

Directive 94/62/EC & CONEG

The Detectamet Group packaging materials do not contain any intentionally added lead, cadmium, hexavalent chromium, mercury, PBB or PBDE thus complying with and meeting the Directive 94/62/EC requirements and CONEG toxics in packaging legislation.

Regulation (EC) No 850/2004

The above mentioned products are fully compliant with the requirements of European Regulation (EC) 850/2004 on persistent organic pollutants, Stockholm convention April 2004.

EC 1895/2005

The Detectamet Group confirms that this product complies with regulation EC 1895/2005 on the restriction of certain epoxy derivatives in materials and articles intended to come in contact with food

REGULATION (EC) No 1005/2009 substances that deplete the ozone layer

This is to confirm that this product is fully compliant with the requirements of the EC regulation 1005/2009 and amendments to date. At no stage during the manufacturing process utilised by The Detectamet Group for the manufacture of the above products are the compounds listed in the Annexes of this regulation or substances known to contain them, intentionally added to the product formulation. The listed substances include: -

- Chlorofluorocarbons (CFCs)
- Halons

- Chloroalkanes

- Bromoalkanes
- Hydrogenbromofluorocarbons (HBFCs)
- Hydrogenchlorofluorocarbons (HCFCs)

Additionally, none of these substances are contained in or used for the production of raw materials.

REACH-Regulation (EC) 1906/2006

These masterbatch products do not contain any of the substances listed in REACH Annex XIV, Substances of Very High Concern (SVHC) Candidate list, in a concentration above 0.1% (w/w).

The current list of all SVHC can be accessed via the link: <http://echa.europa.eu/web/guest/candidate-list-table>

REACH-Regulation (EC) 1907/2006

These masterbatch products do not contain any of the substances listed in Annex XVII of Regulation (EC) 1907/2006 (REACH) 25, regarding restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

REACH Compliance Statement

The Detectamet Group is fully aware of the requirements of REACH, the new EU Regulation on the Registration, Evaluation and Authorisation of Chemicals. It is our intention to fully comply with the legal requirements and to ensure a smooth transition to compliance with the minimum of disruption to our customers. The Detectamet Group is classed as a downstream user under REACH definitions and therefore we are not required to pre-register or register our products. At this time, we do not anticipate any disruptions in continuity of supply to our customers due to this regulation. It is our intention to:

- Identify all substances within our products and ensure that our suppliers (manufacturers or distributors) pre-register/register these substances.
- We will work closely with our supply chain in order to minimise and manage any potential risks associated with SVHC.
- We will communicate sufficient information to our suppliers in order to provide information on identified uses within the meaning of REACH.
- To follow instructions on Safety Data Sheets and information provided on exposure scenarios.
- Provide our customers with information regarding hazards, risks and safe conditions of use of our products through Material Safety Data Sheets.

ALLERGEN STATEMENT

The food ingredients listed in Annex II of Regulation (EU) No 1169/2011 are not used in the manufacture or formulation of these products. Food allergens:

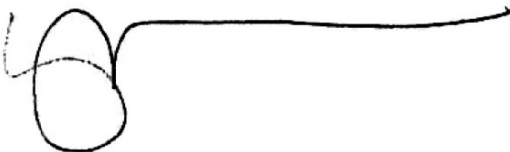

- peanuts, tree nuts (almonds, brazil nuts, chestnuts, filberts, hazelnuts, hickory nuts, macadamia nuts, pecans, pine nuts, pistachios, walnuts)
- milk

- eggs
- soybeans
- shellfish
- crustaceans (shrimp, crabs, lobsters, clams, scallops, crayfish, lobster, oysters)
- molluscs (snails, squid, octopi, clams) and mollusc products
- sulphites
- food colourants
- celery and celery products
- wheat (gluten) and wheat products
- seeds (cotton, poppy, sesame, sunflower, mustard) and seed products
- aspartame
- monosodium glutamate (MSG)
- caffeine
- hydrogenated vegetable protein (HVP)
- grains (barley, oats, rye)
- lupine and lupine products

However, these products have not been tested for presence of above mentioned substances.

Disclaimer: The information contained herein is based upon data believed to be up-to-date and correct at the time of writing. It is provided to our customers to aid relevant risk assessments /risk management for compliance with regulatory requirements for food contact materials. Persons receiving this information must exercise their independent judgement in determining its appropriateness for a particular purpose.

No warranty is given or implied with respect to this information or patent infringement. Detectamet Ltd do not accept liability for loss or damage arising from the use of this information. Results are based on a test sample, our general experience and information from our suppliers. Data and results must be confirmed by the buyer by testing for its intended conditions of use.
